Notes:

- Late prenatal care is defined as care beginning in the third trimester.
- Births with unknown prenatal care status were excluded from the denominator in rate calculations.
- Beginning in 2007, "Date of first prenatal visit" was collected in addition to the "Month prenatal care began" on birth certificates. This affects comparability of trends before and after 2007.
- The increasing number of births with unknown race/ethnicity affects the accuracy of statistics by race/ethnicity.
- The large proportion of births with unknown educational attainment affects the accuracy of statistics by educational attainment.

*Rates not calculated for fewer than 5 events; interpret with caution rates calculated for fewer than 20 events since they are considered statistically unreliable.
