Diabetes: ICD-10 codes E10-E14 as underlying cause of death

\* Rate not calculated for fewer than 20 deaths in this category.

<sup>a</sup> All rates are per 100,000 population. Rates may vary slightly from previously published data due to updated population estimates.

<sup>b</sup> Adjusted rates are adjusted to 2000 U.S. Standard Population.

<sup>c</sup> Deaths with unknown age, region or race/ethnicity are reflected in the county total, but not in the individual categories. Category sums may not add up to county total.

<sup>d</sup> Race/ethnicity data may be different from previously published data due to modifications in the collecting, reporting and coding of racial and ethnic status.
