West Nile Neuroinvasive Disease					2	2	0	2	12	27
Yersiniosis	5	8	7	9	6	16	23	6	10	7

Shaded box indicates year disease became reportable to CA Dept of Health Services; for diseases with no shaded box the disease was reportable throughout the entire period. Some diseases have cases reported prior to the year they became reportable.

AIDS cases are reported by year of diagnosis. Due to delays between diagnosis and report, AIDS cases for 2008 will continue to be reported into mid to late 2009.

* These conditions are reportable as unusual disease occurrences

¶ Excludes single cases of Scombroid Fish Poisoning

§ Positive laboratory tests as reported to the CA State Veterinary Unit; includes animals tested by Public Health Laboratory & County Veterinarian

μ Voluntarily reportable by request of the local health officer

φ In 2004 case definition expanded to include individuals with blood lead levels above 10 ug/dL
