County Medical Services

The County of San Diego Health and Human Services Agency operates the County Medical Services (CMS) Program and AmeriChoice manages the day-to-day business. CMS helps uninsured adult county residents to get medical care. CMS uses a network of community health centers, private physicians and local hospitals to provide the services.

CMS is not health insurance; it is a program of last resort for eligible adults, which covers only necessary medical services.

CMS covers the cost of your immediate and on-going medical care. Conditions like pregnancy, routine physicals, and mental health are never covered. Other services may have limited coverage.

The County reserves the right to impose a lien against your property for services covered by CMS. The County further reserves the right to require a Reimbursement Agreement be signed by you as a condition of eligibility. The Reimbursement Agreement permits the County to bill you directly for repayment to CMS for the services covered by CMS.

This handbook tells you where and how to receive CMS medical services and what medical care is available to you.

What Medical Services Are Covered?

CMS IS NOT A HEALTH INSURANCE PROGRAM

Services Covered By CMS (prior approval is not necessary)

- Evaluation of your condition by a primary care provider
- Follow-up care by a primary care provider for serious health conditions
- Emergency room care
- Emergency hospital admissions
- Emergency medical transportation
- Emergency dental care
- Prescription medicines from the CMS approved list (All prescriptions funded by CMS must be approved by the Food & Drug Administration/FDA)

Services That Need To Be Approved In Advance By CMS

- Medical care from a specialist physician
- Planned hospital admissions
- Surgical and diagnostic procedures
- Limited rehabilitation, vision, medical equipment and home health services
- Non-emergency medical transportation
- Prescription medicines not on the CMS approved list
- Medications and treatment related to preventing organ rejection and/or complication

Services Never Covered By CMS

- Routine physical examinations and preventive care
- Routine dental and vision care
- Orthodontia
- Services to pregnant women
- Family planning (including voluntary sterilization)
- Infertility services
- Care by a chiropractor
- Non-prescription medicines
- Visits to the ER for follow-up or prescriptions
- Treatment of mental health, alcohol and/or drug problems
- Experimental or cosmetic procedures
- Organ and bone transplants and all related services related to obtaining a transplant
- Bone marrow transplants
- Clinical trials are not a CMS Program covered benefit. This includes any medications, treatments, procedures, or professional components related to any clinical trial in which the CMS patient may be involved.

Eligibility

Whether you have an unexpected health problem like an infection or an accident, or long term medical problem like diabetes or high blood pressure, CMS can cover medical expenses for you when you qualify. CMS does not cover bills for services received before the date of your CMS application. You must schedule an interview, complete an application, and be approved CMS to be covered. Call (800) 587-8118 to make your application appointment. Eligibility locations are listed on page 14.

If you qualify for CMS you:

- Will be initially certified for up to six months.
- Will be asked to choose one of the community health centers as your primary care provider.
- Will receive a CMS card, a Medical/Dental Need form, a Notice of Action showing how long you are eligible and whether or not you have a monthly Share of Cost. When you receive any medical service, you must show your card or your Notice of Action to the medical provider.

Share of Cost

Share of Cost is the amount that you must pay or be obligated to pay toward the cost of CMS covered health care services each month. In any month you receive CMS services, you will be billed by the County for your share of cost or the amount of CMS services, whichever is less. You will not be billed for any months in which you did not receive CMS services.

When Your Card Expires

If you have an ongoing medical/dental need and will require CMS coverage past your certification period, you will need to attend an interview to be evaluated for ongoing CMS. To request an appointment for the interview, you must:

1. Have your provider complete the Medical/Dental Need form provided to you when your CMS was approved.
2. Mail or fax the completed Medical/Dental Need form to CMS before your certification period ends. The address and fax number are listed on the form.
3. Call 1-800-587-8118 before your certification period ends to schedule your next appointment. The Medical/Dental Need form must be received by CMS before your appointment will be scheduled.

Provide the completed Medical/Dental Need form and call (800) 587-8118 to make your appointment for an interview at least 30 days before your eligibility period expires.

Eligibility

If you have certain chronic health condition(s), your eligibility period may be renewed for up to 12 months.

If you are admitted to the hospital through the emergency room and your CMS card has expired, the hospital may arrange for you to complete an application while you are in the hospital.

Each time you apply for CMS you are asked to:

- Provide:
 - Proof of identity
 - Proof of county residence
 - Proof of immigration status, if applicable
 - Proof of your current income and resources

If you are found to be eligible, CMS will be approved starting on your date of application. If you have received care between the date of your application and the date your application is approved, CMS will only pay for CMS covered services that have not been paid for. Information about CMS covered services begins on page 7 of this handbook.

Eligibility

What To Do When You Have Been Injured By Another Person

If another person causes your injury, that person may be responsible for paying for your medical care. CMS has the right to seek repayment from that person. You must report to CMS whenever you have been injured in an accident including on-the-job injury. You must call the Third Party Liability section of CMS at (888) 553-5552 to report the accident.

Selecting a Primary Care Provider

After your eligibility has been approved, you will be asked to select one of the community health centers as your primary care provider. The primary care provider you selected will be listed on the front of your CMS card.

Your primary care provider coordinates your medical care, as appropriate, either by providing treatment or by sending Treatment Authorization Referrals (TAR) to CMS for treatment which needs to be approved by CMS in advance.

Changing Your Primary Care Provider

You may change your primary care provider if:

- You have moved to a new area in the county;
- You need medical care that cannot be provided by your current primary care provider; or
- There are differences between you and your primary care provider that cannot be resolved through the complaint process.

Call CMS Patient Information at **(800) 587-8118** to request a change, and tell the representative why you want to change.

Your Rights and Responsibilities

You are an important partner in your medical care and can help doctors and nurses provide the best care possible.

Under CMS You Have The Right To:

- Get good medical information so you can make decisions about your health care and treatments.
- Request or refuse medical treatment.
- Receive considerate, respectful care at all times.
- Choose your medical provider within the limits of the program.
- Talk to CMS staff that can help you with your questions, problems, and complaints.
- Appeal if you are not satisfied with a program decision (see page 11 for instructions).
- Expect that the information in your medical record and what you say to your doctor will not be released without your permission, except as required or allowed by law.
- Request a second opinion if you do not agree with the medical care or the treatment plan prescribed for you by your medical care provider.

Under CMS You Are Responsible For:

- Calling your primary care provider for medical advice FIRST, except in an emergency.
- Arriving on time for your scheduled appointments.
- Letting your medical care providers know if you do not understand your treatment plan or what is expected of you, and if you agree to the treatment recommendations, following your medical care providers' instructions.
- Giving accurate and complete information about your present condition and past illnesses to your medical care providers.
- Treating providers and CMS staff with respect and dignity.
- Giving accurate information about your financial and residency status to eligibility staff.
- Reporting changes in your financial or living situation to eligibility staff within ten (10) days of the change.
- Reporting any accident or injury caused by another person.
- Repaying CMS from third party recovery, including lawsuits.
- Paying or obligating Share of Cost payments, if applicable.

How to Receive CMS Services

When you are eligible for CMS, be sure to follow these instructions so your medical care is covered.

Dental Services

CMS covers emergency dental care *ONLY* at a CMS dental clinic. It does not provide complete dental care such as routine check-ups, cleaning or dentures. All non-emergency services must be approved by CMS before they are provided. When you need emergency dental care, call the CMS dental clinic in your area and schedule an appointment. See page 15 for locations.

Emergency Room Services

Emergency room services are *ONLY* covered if the medical problem requires immediate attention. An emergency is a medical problem that:

- Happens suddenly and has very serious symptoms
- Could cause serious injury or damage to your body if you do not see a doctor right away

Some of these medical problems are:

- Broken bones
- Severe pain
- Chest pain
- Severe burns
- Breathing problems
- Poisoning

Emergency room visits for psychological diagnoses or mental health conditions are not covered by CMS.

Inpatient Services

CMS covers all of the cost of inpatient services if:

- You are admitted for a covered condition;
- You are admitted because of an emergency; or
- Your doctor obtains authorization before you are admitted to the hospital.

If you are admitted through the emergency room, show your CMS card to the hospital admitting staff.

Out-of-County Services

CMS pays for medical care only when it is provided in San Diego County. If you are admitted to a hospital while in another county or state, identify yourself as a San Diego County CMS patient and ask the hospital staff to call CMS at (800) 587-8118 to arrange for your follow-up care in San Diego County.

How to Receive CMS Services

Outpatient Services

Except for emergencies, always contact your primary care provider for your care. The community health center you selected is your primary care provider. Your primary care provider will provide or make arrangements for all the care that you need.

Pharmacy Services

CMS provides covered prescription medicine (a Share of Cost payment may be required). All prescriptions funded by CMS must be approved by the Food & Drug Administration (FDA).

If your physician prescribes a medicine that is not covered by CMS, the pharmacist or your physician must request authorization from CMS before filling your prescription. If CMS does not authorize the medicine, you may choose to pay for it yourself.

All prescriptions must be filled by a pharmacy serving CMS (listed on pages 21-25) or by your primary care provider. You must show your CMS card or Notice of Action to prove eligibility. If you do not show proof of eligibility, you may be asked to pay for your prescription.

If you have a monthly Share of Cost, each month you must pay or be obligated to pay any applicable costs towards your Share of Cost.

If you fill your prescription at a pharmacy that does not serve CMS or you fill a prescription for medicine that CMS did not authorize, you are responsible for paying for the medicine yourself. CMS will not reimburse you.

Specialty Physician Referrals

Medical care that cannot be provided by your primary care provider must be approved in advance by CMS medical staff. Your primary care provider will tell you if the service has been approved and may help you to make your appointment with the specialist before the approval expires. If the service is not approved, you will receive a written denial from CMS.

How to Receive CMS Services

Substance Abuse and Mental Health Services

CMS provides physical health care services only. The County of San Diego Health and Human Services Agency also provides treatment for alcohol, drug, and mental health problems. For more information, please call:

- Alcohol and Drug Services..... (619) 584-5007
- County Mental Health..... (800) 479-3339
- TDD for the hearing impaired (619) 294-9980

Medi-Cal Program

Medi-Cal is California's primary medical coverage program for low income people, and it covers more services than CMS. If you have been disabled or expect to be disabled for more than 1 year, you should apply for Medi-Cal.

CMS staff can help you go through the Medi-Cal application process. Ask your CMS worker about a referral to Medi-Cal or call ACCESS toll free within San Diego County at (866) 262-9881 and ask for a Medi-Cal application.

Complaints

When you:

- Have a question
- Have a problem with the program or provider
- Can't get an appointment
- Were denied a medical service and you disagree with the denial

Call CMS Patient Information at (800) 587-8118 weekdays between 8:00 a.m. and 5:00 p.m. The CMS Patient Services Representative can answer your questions and can tell you what you need to do.

If you need more help, the Consumer Center for Health Education and Advocacy known as The Consumer Center can also help you. The Consumer Center offers health education and patient advocacy to CMS and Medi-Cal patients. It can help you resolve problems in qualifying for eligibility as well as problems in getting appropriate medical treatment. Their toll free number is (877) 734-3258.

What To Do When Providers Bill You

Do not ignore bills that you receive from health care providers for services that have been approved by CMS. Do not send your bills to CMS. Instead, call the provider who billed you, explain that you are eligible for CMS, and send them a copy of your CMS card or Notice of Action. If you fail to notify your provider that you have CMS, you will be responsible for payment of the provider's bill. If the provider has questions, ask them to call CMS at (800) 587-8118.

CMS does not guarantee payment of all medical services. CMS guidelines and requirements must be met in order for payment to occur. You will be notified if payment for your medical bill is denied.

Appeals

Eligibility Appeals

If you are denied *CMS* eligibility and you disagree, you have the right to request a review of eligibility determination.

1. You may request a first level supervisory review of the *CMS* eligibility determination. You must do this within fourteen (14) calendar days after the date of the denial notice by writing to or calling:

To Write:
CMS Program (0557E)
First Level Supervisory Review
PO Box 85222
San Diego, CA 92186

To Call:
CMS CALENDAR CLERK
(858) 492-2200

2. If you are dissatisfied with the first level supervisory review decision, you may file for a County Administrative Hearing. If you file for a County Administrative Hearing without first requesting a first level supervisory review, the County Hearing Officer conducts the hearing. You must file for a County Administrative Hearing within fourteen (14) calendar days after the date of the denial notice by writing or calling:

San Diego County Health and Human Services Agency
Appeals Section - GR/CMS Calendar Clerk
4990 Viewridge Avenue
San Diego, CA 92123
Phone: (858) 514-6887

3. If you are dissatisfied with the County Hearing Officer's decision, you may file an appeal with the San Diego County Superior Court.

Requests submitted after 14 calendar days shall only be considered if you present good cause for missing the deadline.

Appeals

Treatment Authorization Request (TAR) Denial Process

TAR Administrative Denial

When your primary care provider or specialist submits a medical request to the County Medical Services program, it must be reviewed and program guidelines must be met in order to be approved. However, there are instances when a request is denied. Administrative Denials are issued when the Treatment Authorization Request (TAR) was submitted without ANY medical documentation to support the specific request. The health care provider must submit the required medical documentation in order to reconsider the medical request.

TAR Medical Reconsideration and Appeal

If you have been denied a medical service, always talk with your primary care provider or the specialist about other treatments available to you. If you still have concerns that are not resolved after speaking with your provider, you may call the CMS Customer Services staff and have the denial reconsidered.

1. Reconsideration Process: You must send a signed statement asking for a reconsideration within 30 calendar days of the date of the service denial notice to:

**CMS Customer Service Supervisor
P.O. Box 939016
San Diego, CA 92193**

If your letter is sent after 30 days, please explain the reason in your letter for being late. CMS will review and send the decision to you by certified mail within 45 calendar days of receiving your statement.

2. Appeal Process: If you are not satisfied with the Reconsideration decision, you may request an appeal. Send your written appeal within 30 calendar days from the date of the reconsideration decision notice to:

**CMS Customer Service Supervisor
ATTN: Medical Appeal
P.O. Box 939016
San Diego, CA 92193**

Appeals

You have certain rights in an appeal. The Customer Service Supervisor will explain your rights and tell you what steps you need to follow. You and/or your representative may present your reason for appeal to the independent panel who hears your case. CMS will send you a written decision by certified mail within 20 County business days after your hearing. The appeal is the final step.
