- Represents zero events.

<sup>1</sup> Deaths occurring during the first 27 days of life.

<sup>2</sup> Deaths occurring between the 28th day and the end of the first year of life.

\* Beginning in 2000, up to three races were reported on death certificates. The list of races on this table is compiled by identifying mothers reporting 2 or more race groups before tabulating single races.

These groups are only comparable to the year 2000 data tables. See Chapter 6.
