MEDI-CAL PROGRAM

1997

This report presents statistical data on Medi-Cal program services, expenditures, and eligibles for Calendar Year 1997.

County Welfare Departments determine eligibility for all Medi-Cal eligibles with the exception of Supplemental Security Income/State Supplementary Payment (SSI/SSP) eligibles, who have their eligibility determined by the Social Security Administration.

Persons eligible for Medi-Cal are reported to the Medi-Cal Eligibility Data System (MEDS) by the County Welfare Departments, the State, and the Social Security Administration.

Payment data used in this report are based on the concept of month of payment rather than month of service. The difference can be best explained by pointing out that payments made in a given month can be for services rendered in one or more previous months.

It should be noted that expenditures in this report are based on paid claims computer tapes prepared by various entities that process Medi-Cal claims and do not represent official budget figures or accounting records. Audit recovery monies, Medicare premiums, refunds, and administrative expenses are not included in this report except when specifically noted.

This report does not account for drug rebates from contracts with manufacturers nor Disproportionate Share Hospital Payments.

NOTE ON DATA PRESENTATION

Generally, the data in this report include the Medi-Cal Fee-For-Service Program, Medi-Cal beneficiaries in State Hospitals, and Medi-Cal beneficiaries covered under a capitation contract with Delta Dental Service.

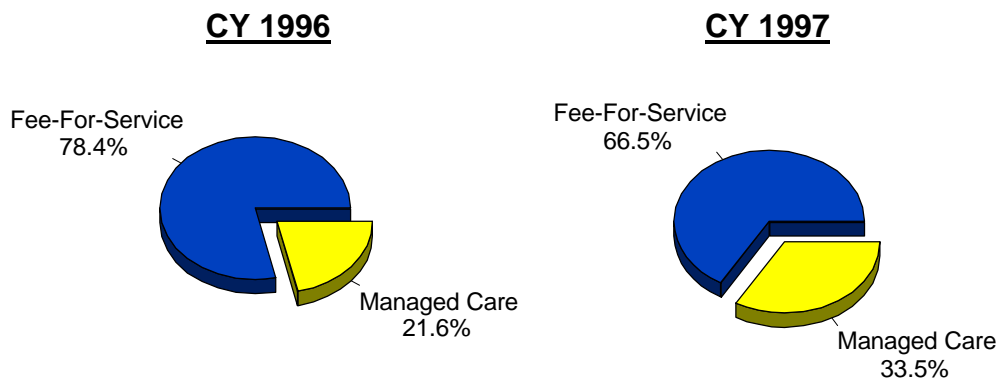

Data on Capitated Health Systems are excluded from a number of tables in this report. Capitated Health Systems receive a monthly capitation payment to provide services to enrollees, so cost figures for specific services are not available.

Capitated Health Systems data are included in Tables 1, 2, 14, 15, 28, and 29.

The Fee-For-Service data for Primary Care Case Management Plan beneficiaries are included in this report.

During Calendar Year 1997, those enrolled in comprehensive managed care plans comprised 33.5 percent of the total Medi-Cal population (compared to 21.6 percent during Calendar Year 1996). As used here, "comprehensive plans" means those plans that are capitated to provide more than a limited range of services, including Two Plan Models and GMC. Plans that provide only dental or mental health, for example, are not comprehensive plans. PCCMs are not comprehensive plans.

Use of any expenditure data series for comparison of trends over time is infeasible since the advent of the managed care because of a sharp decline in service reporting among new managed care plans.

The Combined fee-for-service and managed care populations are included in Tables 1 and 28, which reports on the eligible population. The majority of the remaining tables include only fee-for-service data. Tables 14 and 15 include only those enrolled in comprehensive managed care plans.

MEDI-CAL PROGRAM STATISTICAL SUMMARY

CALENDAR YEAR 1997

In 1997, a total of 5.15 million persons per month were eligible for Medi-Cal. This includes Fee-For-Service, County Organized Health Systems, and Health Care Plans. This represents a decrease of 4.3 percent from 1996.

A total of \$672.1 million in prepaid capitations were received by County Organized Health Systems (an increase of 0.7 percent from 1996) to provide non-dental medical services for an average of 378,236 eligibles per month during 1997 (a decrease of 5.1 percent from 1996).

The 1,348,361 persons enrolled in Health Care Plans (HCPs) each month reflected a 76.3 percent increase from 1996. HCP capitation payments totaled \$1.37 billion which is a 58.4 percent increase from 1996.

The large increase in Capitated Health System eligibles is mainly due to Managed Care Expansion. This increase to some extent contributed to the decrease in Public Assistance, Medically Needy, and Medically Indigent Fee-For-Service eligibles.

There were 2.05 million persons who used Medi-Cal benefits each month in 1997. This includes Fee-For-Service Only benefits. Provider payments for those users totaled \$10.0 billion which was 3.5 percent or \$364.8 million less than in 1996.

Compared to 1996, Fee-For-Service Medi-Cal users decreased 8.7 percent and the respective eligible population (3.42 million persons per month) reflected a 18.9 percent decrease.

There were 8.7 percent more users per 1,000 eligibles in 1997. The utilization rate was 59.8 percent compared to 55.0 percent for 1996.

The average cost per user was \$407.24 per month (up 9.3 percent from 1996) and the average cost per eligible was \$243.64 per month (up 18.9 percent from 1996).

Public Assistance eligibles, excluding Capitated Health System eligibles, averaged 2.33 million persons per month, a decrease of 22.3 percent from 1996. This aid group accounted for 68.2 percent of the Fee-For-Service eligible population, 70.5 percent of the users, and 56.1 percent of total provider payments (\$5.61 billion).

Medically Needy eligibles averaged 442,442 persons per month in 1997, a decrease of 11.4 percent from 1996. Medically Needy accounted for 13 percent of Fee-For-Service eligibles, 14.3 percent of users, and 30.8 percent of total provider payments (\$3.07 billion).

Medically Indigent eligibles averaged 181,671 persons per month, an 20.3 percent decrease from 1996. Medically Indigent accounted for 5.3 percent of Fee-For-Service eligibles, 4.6 percent of users, and 3.2 percent of total provider payments (\$324.0 million).

County and community hospital services accounted for 27.9 percent of 1997 provider payments. County hospitals received \$691.6 million. Community hospitals received \$2.10 billion.

Medi-Cal purchased Medicare Part A and Part B Supplemental Medical Insurance for an average of 753,453 Aged and Disabled eligibles each month in 1997. Monthly premiums averaged \$34.5 million.

Section 1

HIGHLIGHTS OF 1997 PROGRAM CHANGES

The following discusses the major changes in Medi-Cal and related programs during Calendar Year 1997.

State Only Family P.A.C.T., January 1997

The State Only Family (P.A.C.T.) Planning, Access, Care and Treatment Program took the place of the State-Only Family Planning (SOFP) Program to expand access to family planning services in California for all men and women with incomes at or below 200 percent of poverty with no other source of health care coverage for family planning services. Eligibility for Family P.A.C.T. services is based on family size, income, and the availability of other health care coverage and will be determined by the medical provider annually.

Minimum Wage Increase, February 1997

The new minimum wage changes, including both Federal and State changes, result in the following four new levels above the previous rate of \$4.25 per hour:

1. \$4.75/hr as of October 1, 1996 (Federal)
2. \$5.00/hr as of March 1, 1997 (State)
3. \$5.15/hr as of September 1, 1997 (Federal)
4. \$5.75/hr as of March 1, 1998 (State)

The increase in the minimum wage impacts the cost of medical care.

Medicare Inpatient & Outpatient Claims, September 1997

The effective date of this change is September 1, 1997, the Federal Balanced Budget Act of 1997 exempts Medicaid programs from providing payment for any expenses incurred relating to payments for deductibles, coinsurance, or copayments for medicare cost-sharing to the extent that such payment would exceed the payment amount that otherwise would be made under the State plan for such services if provided to an eligible recipient other than a medicare beneficiary.

This change will be applied on a date of payment basis as allowed by the Balanced Budget Act of 1997 and the settlement in the Beverly v. Belshé lawsuit.

New Aid Code 7M, 7N, 7P, and 7R: Minor Consent, September 1997

The Department of Health Services implemented four new Aid Codes (7M, 7N, 7P, and 7R) as a better method of identifying beneficiaries eligible for confidential services under the Minor Consent Program. Minor Consent Program beneficiaries are issued paper Medi-Cal Cards that are valid for identification purposes for one year. However, eligibility is still determined on a monthly basis and providers must verify the recipient's eligibility through the Point of Service Network.

The implementation of the aid codes allows the Department to claim FFP for pregnancy

related minor consent services.

Aid Code 7M: Minor Consent Program (Non-FFP). Covers minors aged 12 and under 21. Limited to services related to Sexually Transmitted Diseases, sexual assault, drug and alcohol abuse, and family planning.

Aid Code 7N: Minor Consent Program (FFP). Covers pregnant female minors under age 21. Limited to services related to pregnancy and family planning.

Aid Code 7P: Minor Consent Program (Non-FFP). Covers minors age 12 and under 21. Limited to services related to sexually Transmitted Diseases, sexual assault, drug and alcohol abuse, family planning, and outpatient mental health treatment.

Aid Code 7R: Minor Consent Program (Non-FFP). Covers minors under age 12. Limited to services related to family planning and sexual assault.

Healthy Families Program, July 1, 1998

The Healthy Families (HF) Program provides health coverage to uninsured children, ages 1 to 19 years of age from low income families that do not qualify for no-Share of Cost (SOC) Medi-Cal, by subsidizing private health insurance. Healthy Families will provide health, dental and vision benefits to California children who are ineligible for no-SOC Medi-Cal and whose family incomes fall at or below 200 percent of the federal poverty level (FPL). Children who will be insured by HF represent a segment of the population that differs from Medi-Cal and commercial insurance. The program was implemented with passage of (Assembly Bills 217, 1126, 1572 and Senate Bill 903).

The Managed Risk Medical Insurance Board (MRMIB) administers and establishes policy for the HF Program. MRMIB is contracting with health care plans statewide to provide the medical, dental and vision services to children enrolled in the Health Families Program.

Loss of FFP For Eligible Qualified Aliens, October 1997

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 redefined the categories of aliens who are eligible for federally funded full scope Medi-Cal. Although FFP is only available for emergency services for some aliens, California continues to provide full scope Medi-Cal to all aliens who are eligible pursuant to the rules that were in effect prior to PRWORA. Beginning with October 1997 expenditures, the Department only claims FFP for emergency services to those aliens limited to emergency services under PRWORA. Nonemergency services for these aliens are paid for entirely with state funds.

NOTE

The Immigration Reform and Control Act (IRCA) Alien Program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994.

The term "Health Care Plan" (HCP) is now used in place of Prepaid Health Plan (PHP), and includes the managed care models GMC, PHP and Two-Plan Model.

For additional information on Managed Care, please refer to our new report entitled "1998 Managed Care Annual Statistical Report" available on the Internet.

SECTION 2
MEDI-CAL ELIGIBLES AND USERS

MEDI-CAL ELIGIBLES, ALL PROGRAMS - TABLE 1

Total Medi-Cal eligibles (including Fee-For-Service, County Organized Health Systems, and Health Care Plans) averaged 5.15 million persons per month in 1997, a decrease of 4.3 percent from 1996.

Enrollment of Medi-Cal eligibles in County Organized Health Systems (COHS) and Health Care Plans (HCPs) increased 48.4 percent in 1997, to a monthly average of 1,726,597 persons. For additional information, See Section 5, Medi-Cal Capitated Health Systems, page 34.

Fee-For-Service (FFS) Medi-Cal eligibles averaged 3.42 million persons per month, an increase of 18.9 percent from 1996.

Public Assistance (PA) eligibles averaging 2.33 million persons per month in 1997, decreased 22.3 percent from 1996. PA eligibles accounted for 68.2 percent of all FFS eligibles.

Total Medically Needy (MN) eligibles averaged 442,442 persons monthly and decreased 11.4 percent from 1996. MN eligibles accounted for 12.9 percent of all FFS eligibles.

Total Medically Indigent (MI) eligibles averaged 181,671 persons monthly and decreased 20.3 percent from 1996. MI eligibles accounted for 5.3 percent of all FFS eligibles.

The Immigration Reform and Control Act (IRCA) Aliens program expired December 31, 1994. IRCA is shown for 1996 and 1997 because claims continue to be paid due to the lag from time of service to time of payment.

The Omnibus Budget Reconciliation Act (OBRA) Aliens program averaged 238,591 eligibles per month in 1997, a decrease of 14.6 percent from 1996. OBRA Aliens program eligibles accounted for 7.0 percent of all FFS eligibles.

The Refugee/Entrant programs averaged 1,810 persons monthly, a decrease of 37.9 percent from 1996. Refugee/Entrant program eligibles accounted for 0.1 percent of all FFS eligibles.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty (renamed Income Disregard), and the 200 Percent Poverty programs averaged 210,481 persons monthly, or 6.2 percent of all FFS eligibles.

Data for the Presumptive Eligibility for Pregnant Women program are not available.

The remaining programs (60-Day Postpartum, Dialysis, Total Parenteral Nutrition, Qualified Medicare Beneficiary, Medi-Cal Tuberculosis, and Minor Consent) averaged 10,936 persons per month, an increase of 107.3 percent from 1996. These programs accounted for 0.3 percent of all FFS eligibles.

/1/ Excludes County Organized Health Systems and Health Care Plans.

Note: IRCA = Immigration Reform and Control Act; OBRA = Omnibus Budget Reconciliation Act.

The IRCA program expired December 31, 1994. IRCA is shown for 1996 and 1997 because claims continue to be paid due to the lag from time of service to time of payment.

Figures are rounded independently and may not add to totals.

Figures in parentheses () indicate negative numbers.

Source: State of California, Department of Health Services, Medi-Cal Certified CID Eligibles, Calendar Years 1996 and 1997; Prepaid Health Plan Status Code 1 Reports; Rate Sheet for Managed Care Plans; and MEDSSUM File dated April 1998. (Tables 14, 15, and 18.)

TOTAL ANNUAL PAYMENTS - TABLE 2

This is a companion to Table 1, showing payments by type of program. In this table, you will see Total Annual Medi-Cal payments, then a separate count of payments for County Organized Health Systems (COHS) and Health Care Plans (HCPs), followed by Fee-For-Service (FFS) by Program and Aid Category for 1996 and 1997.

Total Annual Medi-Cal payments (including Fee-For-Service, County Organized Health Systems, and Health Care Plans) averaged \$12.04 billion in 1997, an increase of 1.2 percent from 1996.

The County Organized Health System estimated capitation payments were \$672 million in 1997, a 0.7 percent increase from 1996.

Health Care Plan capitation payments were \$1.37 billion in 1997, compared to \$866 million in 1996, an increase of 58.4 percent.

Capitated Health System payments (COHS and HCPs) are not included in the FFS breakdown.

Total Annual Medi-Cal FFS payments were \$10.36 billion in 1997, a decrease of 3.5 percent from 1996.

Payments for persons in the Public Assistance (PA) group were \$5.61 billion, a decrease of 3.9 percent from the \$5.84 billion in 1996. PA payments accounted for 56.1 percent of all FFS payments.

Over \$3 billion was paid for services provided to the Medically Needy (MN), down 1.1 percent from 1996. MN payments accounted for 30.8 percent of all FFS payments.

Total Medically Indigent (MI) payments were \$324 million, down 10.7 percent from the \$362 million in 1996. MI payments accounted for 3.2 percent of all FFS payments.

The Immigration Reform and Control Act (IRCA) Aliens program expired December 31, 1994. IRCA is shown for 1996 and 1997 because claims continue to be paid due to the lag from time of service to time of payment.

The Omnibus Budget Reconciliation Act (OBRA) Aliens program payments were \$548 million, down 13.0 percent from the \$629 million the previous year. The OBRA Aliens program payments accounted for 5.5 percent of all FFS payments.

Payments for the Refugee/Entrant programs were \$9 million, down 26.8 percent from the \$12 million in 1996. Refugee/Entrant program payments accounted for 0.1 percent of all FFS payments.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty (renamed Income Disregard), and the 200 Percent Poverty programs accounted for \$319 million, a 1.8 percent decrease from the \$325 million in 1996. These programs accounted for 3.2 percent of all FFS payments.

Total payments for the remaining groups (excluding Not Reported) were \$71.9 million in 1997, up 45.2 percent from the \$49.5 million in 1996. These payments accounted for 0.7 percent of all FFS payments.

TABLE 2

/1/ Excludes County Organized Health Systems and Health Care Plans.

Note: IRCA = Immigration Reform and Control Act; OBRA = Omnibus Budget Reconciliation Act.

The IRCA program expired December 31, 1994. IRCA is shown for 1996 and 1997 because claims continue to be paid due to the lag from time of service to time of payment.

Payments are rounded independently and may not add to totals.

Figures in parentheses () indicate negative numbers.

Source: State of California, Department of Health Services, Medi-Cal Services and Expenditures Month of Payment Calendar Year Report; Prepaid Health Plan Capitation Summaries; Rate Sheet for Managed Care Plans; and MEDSSUM File dated April 1998. (Tables 14, 15, and 20.)

MONTHLY MEDI-CAL ELIGIBLES - TABLE 3

An average of 3,420,253 persons were eligible each month for Medi-Cal fee-for-service benefits during 1997. Average monthly eligibles in the first half of the year ran about 309,921 or 9.5 percent higher than in the last half.

The Public Assistance (PA) program accounted for 68.2 percent of the total annual average eligibles. The PA eligibles averaged 262,233 more persons in the first half of the year than in the last half.

The Medically Needy (MN) program accounted for 12.9 percent of the total annual average eligibles. The average MN eligibles ran 21,884 persons higher in the first half of the year than in the last half.

The Medically Indigent (MI) program accounted for 5 percent of the total annual average eligibles. Eligible counts in the MI program peaked in March. The average MI eligible count was higher in the first half of the year than in the last half.

The Aliens and Refugee/Entrant programs combined accounted for 7 percent of the eligible population.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty (renamed Income Disregard), and 200 Percent Poverty programs combined accounted for 6 percent of the eligible population.

The 60-Day Postpartum program accounted for less than 0.1 percent of the eligible population.

The Qualified Medicare Beneficiary program accounted for 0.1 percent of the eligible population.

Data for the Presumptive Eligibility for Pregnant Women program are not available.

The Medi-Cal Tuberculosis program, Minor Consent, and All Other groups combined accounted for 0.2 percent of the eligible population.

INA Information Not Available.

/1/ Other includes Dialysis and Total Parenteral Nutrition.

Note: IRCA = Immigration Reform and Control Act; OBRA = Omnibus Budget Reconciliation Act.

The IRCA program expired December 31, 1994. IRCA is shown for 1997 because claims continue to be paid due to the lag from time of service to time of payment.

FFS = Fee-For-Service; QMB = Qualified Medicare Beneficiary; TB = Tuberculosis.

Averages are rounded independently and may not add to totals.

Source: State of California, Department of Health Services, Medi-Cal Certified CID Eligibles, Calendar Year 1997.

MONTHLY MEDI-CAL USERS - TABLE 4

An average of 2,046,206 persons received Medi-Cal program benefits each month in 1997. Monthly users averaged 115,423 more persons in the first half of the year than in the last half.

A monthly utilization rate can be computed from Tables 3 and 4. The utilization rate for the Total Fee-For-Service Program is 60 percent of eligibles receiving service each month.

The Public Assistance (PA) group, which accounted for 70.5 percent of the total annual average Medi-Cal users, had a utilization rate of 62 percent. There were an average of 189,440 fewer PA users in the first half of the year.

The Medically Needy (MN) group, which accounted for 14 percent of the total annual average users, had a utilization rate of 66 percent. There were an average of 18,331 more MN users in the first half of the year.

The Medically Indigent (MI) group, which accounted for 5 percent of the total annual average users, had a utilization rate of 53 percent. These users averaged 12,839 more MI users in the first half of the year.

The Aliens and Refugee/Entrant groups accounted for 4 percent of the total annual average users.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty (renamed Income Disregard), and the 200 Percent Poverty groups combined accounted for 5 percent of the total annual average users.

The 60-Day Postpartum, Qualified Medicare Beneficiary, Presumptive Eligibility for Pregnant Women, Medi-Cal Tuberculosis Program, Minor Consent, and All Other groups combined accounted for 2.2 percent of the total annual users.

/1/ Other includes Dialysis, Total Parenteral Nutrition, and Not Reported.

Note: IRCA = Immigration Reform and Control Act; OBRA = Omnibus Budget Reconciliation Act.

The IRCA program expired December 31, 1994. IRCA is shown for 1997 because claims continue to be paid due to the lag from time of service to time of payment.

FFS = Fee-For-Service; QMB = Qualified Medicare Beneficiary; TB = Tuberculosis.

Averages are rounded independently and may not add to totals.

Source: State of California, Department of Health Services, Medi-Cal Services and Expenditures Report (Monthly - Control Totals) and Calendar Year Report.

MEDI-CAL UTILIZATION - TABLE 5

Comparing persons eligible during a period with claims paid (rather than services provided) in that period gives rather crude comparisons, but the more correct comparison would not generally result in significantly different utilization rates.

An average of 2,046,206 persons received Medi-Cal program benefits each month in 1997. This was 271,658 fewer monthly users than in 1996.

The total number of users per 1,000 eligibles increased 8.7 percent, from 550 in 1996 to 598 in 1997. The total number of users include the Presumptive Eligibility for Pregnant Women program, however, eligibles are not available. If these users are excluded, the overall utilization rate calculates to be 588 in 1997.

In 1997, the Public Assistance group, which accounted for 70.5 percent of total users, had a utilization rate of 62 percent. The Medically Needy group had the highest utilization rate of 66 percent.

The 1997 rates compared to the 1996 rates ran higher for each group except for the OBRA Aliens, 185 Percent Poverty, 200 Percent Poverty, 60-Day Postpartum, and the Medi-Cal Tuberculosis Program group.

Calendar Year 1997 data do not include users of health care services provided by County Organized Health Systems (COHS) or Health Care Plans (HCPs).

NA Not Applicable.

Claims processing time lags can distort utilization rates, especially for smaller groups of eligibles or groups whose numbers change considerably.

Note: FFS = Fee-For-Service; IRCA = Immigration Reform and Control Act; OBRA = Omnibus Budget Reconciliation Act.

The IRCA program expired December 31, 1994. IRCA is shown for 1996 and 1997 because claims continue to be paid due to the lag from time of service to time of payment.

Figures are rounded independently and may not add to totals.

Figures in parentheses () indicate negative numbers.

Source: State of California, Department of Health Services, Medi-Cal Services and Expenditures Month of Payment Calendar Year Reports and Medi-Cal Certified CID Eligibles Calendar Year Reports.

SECTION 3
MEDI-CAL EXPENDITURES

PAYMENT PER ELIGIBLE
BY PROGRAM AND AID CATEGORY - TABLE 6

The average monthly payment per eligible was \$243.64 in 1997. This represents an increase of \$38.75 per eligible or 18.9 percent over the prior year. Payments include the Presumptive Eligibility for Pregnant Women program, however, eligibles are not available. If these payments are excluded, the overall cost per eligible calculates to be \$242.20.

Relative cost increases exceeding the overall 18.9 percent were experienced by the Immigration Reform and Control Act (IRCA) program (up 208.9 percent) and 60-Day Postpartum (up 25.2 percent); Dialysis (up 34.4 percent) and Qualified Medicare Beneficiary (up 35.3 percent); and the Medi-Cal Tuberculosis Program (up 48.5 percent).

Public Assistance Families, which is a major expenditure group, had a relatively small increase in cost per eligible, up 17.0 percent to \$101.72 per month in 1997.

Calendar Year 1997 data do not include payments for health care services handled by County Organized Health Systems (COHS) or Health Care Plans (HCPs).

PAYMENT PER USER
BY PROGRAM AND AID CATEGORY - TABLE 7

During 1997, the Medi-Cal program spent \$407.24 per month per user of service. This was \$34.61 or 9.3 percent more than in 1996.

The lowest monthly cost group was the 133 Percent Poverty beneficiary at \$106.75 per user, followed by the 100 Percent Poverty beneficiary at \$130.38 per user.

Public Assistance, Aged, Blind, and Disabled Medi-Cal payments showed increases from the previous year.

The cost for Public Assistance (PA) Families was \$185.87 per user per month, while for Medically Needy (MN) Families it was \$291.72. A larger proportion of MN Families utilize hospital inpatient services resulting in higher cost rates.

Costs per user in the MN Aged, Blind, and Disabled groups tend to be rather large. This is because a large number of persons in these groups are in a long-term care facility. The cost per Medically Needy user runs almost three times that of Public Assistance users.

Cost per user for Medically Indigent Adults and Children showed an increase of 1.7 and 8.3 percent from the previous year.

The IRCA Aliens, OBRA Aliens, Refugee/Entrant, 100 Percent Poverty, 133 Percent , 60-Day Postpartum, Dialysis, Total Parenteral Nutrition, Presumptive Eligibility for Pregnant Women and Medi-Cal Tuberculosis Program all showed increases.

185 Percent Poverty (Infant), 200 Percent Poverty, and Qualified Medicare Beneficiary all showed decreases in the cost per user.

COST PER SERVICE - TABLE 8

The most frequently used physician service is, of course, the outpatient visit. In 1997, the Medi-Cal average cost per physician outpatient visit was \$23.09. Outpatient visits include office, emergency room, home, and other outpatient situations.

Physicians' hospital inpatient visits averaged \$32.18 per visit. Visits for long-term care inpatients averaged \$25.04 per visit.

After outpatient visits, the second largest expenditure category of physician services is for inpatient hospital surgery. This service has the highest cost rate, \$562.55 per service in 1997.

The average cost per drug prescription was \$32.99 in 1997, an increase of 19.9 percent from the prior year.

The highest cost per service in the Medi-Cal program is, of course, for hospital inpatient care. The average cost per hospital inpatient day in 1997 was \$1,028.15 for Public Assistance Families and Medically Needy Families. Those groups accounted for 28.7 percent of total hospital inpatient expenditures in 1997 and were used in Table 8 so that most Medicare/Medi-Cal crossover data could be excluded. Costs include ancillaries as well as accommodations.

In 1997, the average cost per day of care was \$82.03 for nursing facilities and \$112.56 for intermediate care facilities-developmentally disabled.

PAYMENTS BY PROVIDER TYPE - TABLE 9

In 1997, provider payments averaged \$833.3 million per month, down \$30 million from the prior year's average.

Community Hospitals received the largest share of the Medi-Cal provider payments. Monthly expenditures for these hospital services decreased 13.9 percent from the prior year to \$174.7 million per month.

Nursing Facilities was the second highest paid provider group. Their payments increased 0.2 percent from 1996 to \$167.9 million per month.

Physicians received 87.1 million per month in 1997, up 0.2 percent from the prior year.

Payments to County Hospitals averaged \$57.6 million per month during 1997, down 15.1 percent from the prior year.

All of the provider types showed an increase in 1997, except Dentist, Optometrist, County Hospital, Community Hospital, State Hospital, Laboratory Facility, Rehabilitation Facility, and Organized Outpatient Clinic, which showed decreases of 0.2, 19.4, 15.1, 13.9, 9.8, 2.7, 10.7 and 13.5 percent respectively.

COST PER ELIGIBLE BY PROVIDER TYPE - TABLE 10

The average monthly cost per eligible was \$243.64 in 1997.

Community Hospitals was the largest expenditure category and had the highest cost per eligible per month at \$51.09, up 6.2 percent from 1996.

Cost per eligible in the second largest expenditure category, Nursing Facilities, was \$49.11, an increase of 23.5 percent from 1996.

Pharmacies was the third largest expenditure category and its monthly cost per eligible of \$37.65 reflected an increase of 33.7 percent from 1996.

Payments to Physicians cost \$25.47 per eligible per month, a 23.5 percent increase from 1996.

County Hospitals was the fourth largest expenditure category and its monthly cost per eligible of \$16.85 reflected an increase of 4.6 percent from 1996.

COST PER USER BY PROVIDER TYPE - TABLE 11

In 1997, the average monthly cost per recipient was \$407.24.

Users of State Hospital services and County and Community Hospital Inpatient services were the most costly - of those three provider types, State Hospital services showed the highest cost per user at \$9,388.70 per month, up 4.4 percent from 1996; County Hospital Inpatient services showed the cost per user at \$5,378.91, down 0.3 percent from 1996; and Community Hospital Inpatient services showed the lowest cost per user at \$3,474.36, down 3.0 percent from 1996.

Home Health Agency showed the largest cost increase from a year ago, up 63.5 percent per recipient.

TOTAL MEDI-CAL PROGRAM EXPENDITURES - TABLE 12

Table 12 is the only table showing all types of Medi-Cal program expenditures. The following figures reflect actual budget item expenditures and, as such, are reported here by fiscal (budget) year rather than by calendar year.

Total Medi-Cal expenditures were \$17.46 billion for Fiscal Year (FY) 1996-97, an increase of 6.5 percent from FY 1995-96.

The \$10.0 billion in direct fee-for-service provider payments was a decrease of 6.2 percent. These expenditures accounted for 58 percent of the total expenditures in FY 1996-97 and 65 percent in the FY 1995-96.

Delta Dental (DD) is an at-risk fiscal intermediary providing authorization and payment for virtually all types of Medi-Cal dental services rendered. DD covers all Medi-Cal eligibles except those enrolled in HCPs providing dental care. In FY 1996-97, the approximate number of Medi-Cal eligibles covered by DD was 4.87 million persons per month. Capitation payments totaled \$557.3 million, down 0.3 percent from FY 1995-96.

Health Care Plan (HCP) capitations increased 67.7 percent to \$1.07 billion in FY 1996-97.

There were five County Organized Health Systems (COHS) in effect during FY 1996-97. Santa Barbara Health Initiative was effective September 1, 1983, Health Plan of San Mateo was effective December 1, 1987, Partnership HealthPlan of California (PHC) was effective May 1, 1994, Orange County Organized Health System (CalOPTIMA) was effective October 1, 1995 and Santa Cruz County Health Options was effective January 1, 1996. Payments to COHS totaled \$686.2 million.

Expenditures for Early Periodic Screening Services decreased 25.7 percent to \$55.7 million in FY 1996-97. The program provides screening, diagnostic, and treatment services for all Medi-Cal eligibles under age 21.

The Short-Doyle/Medi-Cal program provides community mental health services to Medi-Cal program eligibles. The \$429.7 million expenditure in FY 1996-97 reflects an increase of 24.5 percent from the prior fiscal year.

Buy-In is the purchase of Medicare Part A and Part B Medical Insurance Coverage by the Medi-Cal program for those eligibles who are entitled to the coverage. Expenditures for Medicare Part A and Part B Buy-In ran \$706.3 million in FY 1996-97.

Administration costs include various State Departmental expenditures, payments for claims processing operations, and county administrative expenses. In FY 1996-97, these expenditures decreased 7.0 percent from the prior fiscal year. Administration costs accounted for 4.5 percent of total expenditures in FY 1996-97 and 5.2 percent of total expenditures in 1995-96.

SECTION 4
MEDI-CAL PROVIDER PARTICIPATION

SECTION 4

MEDI-CAL PROVIDER PARTICIPATION

Table 13 shows the total number of selected types of providers and their distribution by amount paid. The figures include out-of-state providers. Physicians include group practices which are counted as one provider. This understates the physician count, but it is not known how many physicians are practicing in a group.

A county distribution of selected types of providers is given in Table 23 and Table 24. The physician and hospital counts of Table 23 differ from Table 13 due to a different billing period used in Table 23.

The majority of providers are in the \$1-\$599, \$600-\$9,999, and \$10,000-\$49,999 payment intervals. However, for Pharmacies, there were more providers in the \$100,000-\$999,999 payment interval.

The large number of total general hospitals and the large number who received less than \$10,000 each reflects the fact that out-of-state hospital billings are included in the data. Table 23 shows 669 hospitals received payment from Medi-Cal for either inpatient services, outpatient services, or both.

For intermediate care facilities for the developmentally disabled (DD), the largest paid amount interval was \$100,000-\$999,999.

For nursing facilities, the largest paid amount interval was \$1,000,000 and Over.

SECTION 5
MEDI-CAL CAPITATED HEALTH SYSTEMS

HEALTH CARE PLAN ENROLLMENT - TABLE 14

A Health Care Plan is an organized system which provides comprehensive health care services to an enrolled population.

Under Section 14200 et seq., of the Welfare and Institutions (W&I) Code, the Medi-Cal Program provides beneficiaries an opportunity to enroll in a managed care alternative to the Medi-Cal Fee-For-Service (FFS) system. Under this authority, the Department of Health Services contracts with Health Care Plans (HCPs) and pilot projects to provide comprehensive, managed care in specified areas of the State on a prepaid, at-risk basis. Under Federal Law, California's HCPs are the equivalent of Health Maintenance Organizations (HMOs).

HCPs are reimbursed at a per-person per-month FFS equivalent Medi-Cal cost.

Health Care Plan enrollees and payments shown in this report are obtained from the Worksheet for Capitation Payment (Initial Capitation Only, excluding supplemental adjustments, such as, any eligible on hold until certain issues have been resolved; AIDs Capitations; and new eligibles with enrollment beginning after the initial capitation).

An average of 1,348,361 Medi-Cal eligibles were enrolled in Health Care Plans (HCPs) each month of 1997. The enrollment increased 76.3 percent from the 764,694 persons enrolled in the prior year.

During 1997, \$1.37 billion in capitation payments were made to Health Care Plans by the Medi-Cal program. This was \$505.4 million (or 58.4 percent) more than was paid in the prior year.

Los Angeles County was the major county accounting for 445,015 of the 1,348,361 enrollees in 1997. Capitation payments were up \$38.5 million from the \$446.5 million paid by the Medi-Cal program during Calendar Year 1996. Los Angeles County enrollees accounted for 33.0 percent of the total enrollment and 35.4 percent of the total capitation payments.

Sacramento County, with a monthly average of 139,212 enrollees in 1997, was the only other county with at least 10 percent of the total enrollment. Sacramento County capitation payments for enrollees accounted for \$126.6 million (down \$21.9 million from the prior year) or 9.2 percent of the total capitation payments.

In 1997, seventy-three percent of all monthly HCP enrollees and seventy-three percent of the total capitation payments were distributed to Los Angeles County and the combined Counties of Sacramento, Alameda, San Bernardino, San Diego, and Fresno.

During 1997, Medi-Cal had contracts with HCPs in 16 counties.

TABLE 14

/1/ Does not show Medicare recovery, excess risk liability payments, adjustments for enrollees with AIDS, or retroactive capitation rate adjustments. For Fiscal Year 1996-97, excess risk liability payments are not complete at this time.

Note: HCPs = Health Care Plans.

Figures are rounded independently and may not add to totals.

Source: State of California, Department of Health Services, Prepaid Health Plan Status Code 1 Reports and Prepaid Health Plan Capitation Summaries.

COUNTY ORGANIZED HEALTH SYSTEMS - TABLE 15

County Organized Health Systems (COHS) are prepaid by the Medi-Cal program on a capitated at-risk basis. COHSs are responsible for providing authorization and payment for most non-dental Medi-Cal services rendered to Medi-Cal eligibles residing in their respective counties.

The County Organized Health System estimated eligibles and estimated payments shown in this report are obtained from the Rate Sheet for Managed Care Plans and the Medi-Cal Eligibility Data System Summary File.

County Organized Health Systems currently exist in five counties (Orange, San Mateo, Santa Barbara, Santa Cruz and Solano Counties).

An average of 378,236 Medi-Cal eligibles were enrolled in County Organized Health Systems (COHS) each month of 1997. The enrollment decreased 5.1 percent from the average of 398,493 persons eligible each month in 1996.

During 1997, \$672.1 million in capitation payments were made to County Organized Health Systems by the Medi-Cal program. This was 4.6 million or 0.7 percent more than the \$667.5 million paid in 1996. This increase is due to the expansion of County Organized Health Systems.

The Santa Barbara Health Initiative (SBHI) was effective September 1, 1983. A total of \$84.9 million in capitation payments were made for an average of 39,552 monthly eligibles during 1997.

The Health Plan of San Mateo (HPSM) was effective December 1, 1987. A total of \$81.0 million in capitation payments were made for an average of 45,665 monthly eligibles during 1997.

The Partnership HealthPlan of California (PHC), which provides health care to Solano and Napa Counties was effective May 1, 1994. A total of \$96.5 million in capitation payments were made for an average of 44,902 monthly eligibles during 1997.

The Orange County Organized Health System (CalOPTIMA) was effective October 1, 1995. A total of \$360.7 million in capitation payments were made for an average of 224,871 monthly eligibles.

The Santa Cruz County Health Options (SCCHO) was effective January 1, 1996. A total of \$49.0 million in capitation payments were made for an average of 23,246 monthly eligibles during 1997.

TABLE 15

MEDI-CAL PROGRAM
ESTIMATED AVERAGE MONTHLY COUNTY ORGANIZED HEALTH SYSTEMS
ELIGIBLES AND TOTAL CAPITATION PAYMENTS BY COUNTY
CALENDAR YEAR 1997

(COHS ONLY)

COUNTY	ESTIMATED AVERAGE MONTHLY ELIGIBLES	ESTIMATED TOTAL CAPITATION PAYMENTS
TOTAL	378,236	\$672,072,874
Orange	224,871	360,749,461
San Mateo	45,665	80,990,490
Santa Barbara	39,552	84,875,904
Santa Cruz	23,246	48,989,642
Solano	44,902	96,467,377

Note: COHS = County Organized Health Systems.

Figures may differ from previously published reports.

Capitation payments do not include excess risk liability payments, adjustments for enrollees with AIDS, or retroactive capitation rate adjustments made after April 1998. For Fiscal Year 1996-97, excess risk liability payments are not complete at this time.

ORANGE COUNTY ORGANIZED HEALTH SYSTEM (CalOPTIMA)

The Orange County Organized Health System (CalOPTIMA) is a Medi-Cal County Organized Health System, under contract to the State, which is designed to provide a more economical organization of health care resources on a case management basis.

All services authorized for Medi-Cal reimbursement will be provided through CalOPTIMA with the following exceptions: Services authorized by the California Children's Services program for the diagnosis and treatment of the CCS eligible condition of a specific member. Dental services, as defined in Title 22, CCR, Section 51059; Short-Doyle/Medi-Cal mental health services and alcohol and drug program services; Laboratory analysis and reporting under the State serum alpha-fetoprotein testing program administered by the Genetic Disease Branch of the State Department of Health Services; Services rendered under the Adult Day Health Programs pursuant to Title 22, CCR, Section 54001, et seq.; Services rendered under the Multipurpose Senior Services Program pursuant to Chapter 5 (commencing with Section 9400) of Part 1 of Division 8.5 of the Welfare and Institutions Code; or Home and community-based care waived services as described in Title 22, CCR, Section 51176; Local Education Authority (LEA) services described in Title 22, CCR, Section 51360 when provided pursuant to an Independent Education Plan (IEP) or Individual Family Services Plan (IFSP); LEA assessment services as described in Title 22, CCR, Section 51360 (b) (1) for eligible students. Services rendered in a State or Federal hospital, fabrication of optical lenses, targeted case management services as specified in Title 22, CCR, 51351.

CalOPTIMA

<u>Aid Group</u>	<u>Aid Code</u>
Adult	81, 86, 87
Aged	10, 14, 16, 17, 18
Child	4C, 4K, 5K, 3, 4, 45, 82, 83
Disabled	6A, 6C, 20, 24, 26, 27, 28, 36, 60, 64, 65, 66, 67, 68
Family	3A, 3C, 3P, 3R, 1, 2, 8, 30, 32, 33, 34, 35, 37, 38, 39, 40, 42, 54, 59
Long Term Care	13, 23, 63

Estimated capitation payments do not include payments made to County Organized Health Systems for excess risk liability claims.

HEALTH PLAN OF SAN MATEO (HPSM)

The Health Plan of San Mateo (HPSM) is a Medi-Cal County Organized Health System, under contract to the State, which is designed to provide a more economical organization of health care resources on a case management basis.

All services authorized for Medi-Cal reimbursement will be provided through the Health Plan of San Mateo with the following exceptions: Services in any federal or state governmental hospital ("State hospital" does not mean county hospital); Services rendered under the California Children's Services (CCS) case management and not reimbursable under the State's Title XIX program; Child Health and Disabilities Prevention (CHDP) services which are those health care services for eligibles under 21 years of age, and provided in accordance with Title 17, California Code of Regulations (CCR), Section 6800, et seq.; Dental services, as defined in Title 22, CCR, Section 51059; Short-Doyle/Medi-Cal drug services; all Medi-Cal mental health services except outpatient, laboratory and pharmacy; Long term care services rendered by nursing and intermediate care facilities; services rendered under the Adult Day Health Programs pursuant to Title 22, CCR, Section 54001, et seq.; services rendered under the Multipurpose Senior Services Program pursuant to Chapter 5 (commencing with Section 9400) of Part 1 of Division 8.5 of the Welfare and Institutions Code; and Home or community-based care waived services.

OBRA/IRCA recipients in San Mateo County began receiving services through the Health Plan of San Mateo (HPSM), effective September 1, 1993.

Currently, all recipients with an identification number beginning with County Code 41 (San Mateo County) with the exceptions of aid codes 07, 7A, 7C, 44, 47, 48, 49, 50, 69, 70, 72, 74, 75, 79 and 80, who are eligible to receive medical benefits under Medi-Cal or as Medicare/Medi-Cal crossovers are served through the Health Plan of San Mateo

Aged: 10, 14, 16, 17, 18

Disabled: 20, 24, 26, 27, 28, 36, 60, 64, 65, 66, 67, 68, 6A, 6C

Family: 01, 02, 08, 30, 32, 33, 34, 35, 37, 38, 39, 3P, 3R, 40, 42, 54, 59, OA, 3A, 3C, 3G, 3H.

Child: 03, 04, 45, 82, 83, 4C, 4K, 5K

Adult: 81, 86, 87

Long Term Care: 13, 23, 53, 63

IRCA/OBRA: 55, 58, 5F, 5G, 5N

Percent of Poverty: 47, 7A, 72 (Effective October 1, 1998)

Estimated capitation payments do not include payments made to County Organized Health Systems for AIDs and excess risk liability claims.

NOTE

The Immigration Reform and Control Act (IRCA) Alien Program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994.

SANTA BARBARA HEALTH INITIATIVE (SBHI)

The Santa Barbara Health Initiative (SBHI) is a Medi-Cal County Organized Health System administered by Santa Barbara Regional Health Authority under contract to the State. This program provides health care services on a case management basis.

All services authorized for Medi-Cal reimbursement are provided through the Santa Barbara Health Initiative with the following exceptions: Services in any federal or state governmental hospital; Services rendered under California Children's Services (CCS) case management and not reimbursable under the State's Title XIX program; Child Health and Disability Prevention (CHDP) services to eligibles under 21 years of age provided in accordance with the provisions of Title 17, California Code of Regulations (CCR), Section 6800, et seq.; Dental services, as defined in Title 22, CCR, Section 51059; Specialty Mental Health and Short-Doyle/Medi-Cal mental health services; Adult Day Health Care; Laboratory analysis and reporting under the State serum alpha-fetoprotein testing program administered by the Genetic Disease Branch of the State Department of Health Services; The facility or per diem charge component of services rendered to covered beneficiaries 21 to 64 years of age institutionalized in a Joint Commission on Accreditation of Healthcare Organizations (JCAHO) accredited facility designated by the United States Department of Health and Human Services (DHHS) as an Institution for the Mentally Disordered (IMD), except for covered beneficiaries who were receiving such services before turning 21 years of age and who may continue to require such services in which case coverage may be extended until the beneficiary's 22nd birthday; and the facility or per diem charge component of services rendered to covered beneficiaries 64 years of age and under, institutionalized in a non-JCAHO accredited facility designated by DHHS as an IMD.

Currently, all recipients with an identification number beginning with County Code 42 (Santa Barbara County) with the exception of Aid Codes 07, 7A, 7C, 44, 47, 48, 49, 51, 52, 55, 56, 57, 58, 69, 70, 72, 74, 75, and 79 who are eligible to receive medical benefits under Medi-Cal or as Medicare/Medi-Cal crossovers are served through the Santa Barbara Health Initiative. (Medi-Cal Aid Codes are listed at the end of this report.)

Estimated capitation payments do not include payments made to County Organized Health Systems for excess risk liability claims.

PARTNERSHIP HEALTHPLAN OF CALIFORNIA (PHC)

The Partnership HealthPlan of California (PHC) is a Medi-Cal County Organized Health System, under contract to the State, which is designed to provide a more economical organization of health care resources on a case management basis for most Medi-Cal recipients residing in both Solano and Napa Counties.

Nearly all services authorized for Medi-Cal reimbursement will be provided through the Partnership HealthPlan of California with the following exceptions: Services rendered under the California Children's Services case management and not reimbursable under the State's Title XIX program; Dental services, as defined in Title 22, California Code of Regulations (CCR), Section 51059 and 51307 and 51340.1; Short-Doyle/Medi-Cal mental health services as defined in Title 22, CCR, Section 51341. Short-Doyle Drug Medi-Cal Substance Abuse Services as defined by Title 22, CCR, Section 51341.1. However heroin detoxification is a covered service under this contract. Laboratory analysis and reporting under the State serum alpha-fetoprotein testing program administered by the Genetic Disease Branch of the State Department of Health Services; Services rendered under the Adult Day Health Programs pursuant to Title 22, CCR, Section 54001, et seq.; Services rendered under the Multipurpose Senior Services Program pursuant to Chapter 5 (commencing with Section 9400) of Part 1 of Division 8.5 of the Welfare and Institutions Code; or Home and community-based care waived services as described in Title 22, CCR, Section 51346; Local Education Authority (LEA) services described in Title 22, CCR, Section 51360 when provided pursuant to an Independent Education Plan (IEP) or Individual Family Services Plan (IFSP); LEA assessment services as described in Title 22, CCR, Section 51360 (b) (1) for eligible students; Services rendered in a State or federal hospital; fabrication of optical lenses; for Napa County Medi-Cal beneficiaries only, Specialty Mental Health Services. However, contractor is responsible for all mental health drugs. The plan expanded into Napa County on March 1, 1998, and also changed its name. What this all means is that mental health (Specialty Mental Health Services including psychiatric inpatient and outpatient services provided by psychologists, psychiatrists, or by Specialty Mental Health providers under the EPSDT program) is carved-out of the contract for NAPA beneficiaries only. But mental health services (Specialty Mental Health) is carved-in for Solano County beneficiaries.

Currently, all recipients with a Medi-Cal identification number beginning with County Code 48 (Solano County) and County Code 28 (Napa County) with the following Aid Codes receive medical services through the Partnership HealthPlan of California:

Aged: 10, 14, 16, 17, 18
Disabled: 20, 24, 26, 27, 28, 36, 60, 64, 65, 66, 67, 68, 6A, 6C
Family: 01, 02, 08, 30, 32, 33, 34, 35, 37, 38, 39, 3P, 3R, 40, 42, 54, 59,
 OA, 3A, 3C, 3G, 3H
Child: 03, 04, 45, 82, 83, 4C, 4K, 5K
Adult: 81, 86, 87
Long Term Care: 13, 23, 53, 63
IRCA/OBRA: 55, 58, 5F
Percent of Poverty: 7A, 47, 72 (Effective October 1, 1998)

Estimated capitation payments do not include payments made to County Organized Health Systems for excess risk liability claims.

NOTE

The Immigration Reform and Control Act (IRCA) Alien Program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994.

SANTA CRUZ COUNTY HEALTH OPTIONS (SCCHO)

The Santa Cruz County Health Options (SCCHO) is a Medi-Cal County Organized Health System administered by the Santa Cruz Managed Medical Care Commission doing business as Santa Cruz County Health Options under direct contract with the State. The program provides health care on a managed care basis.

All services within the scope of the Medi-Cal program are provided through and must be authorized by SCCHO with the following exceptions: Services authorized by the California Children Services (CCS) program, for diagnosis and treatment of the CCS eligible condition of the specific member; dental services; mental health services, including psychiatric inpatient services and outpatient mental health services provided by mental health professionals; alcohol and drug treatment services available under the Short-Doyle/Medi-Cal program, and outpatient heroin detoxification; services rendered under the Adult Day Health Programs; services rendered under the Multipurpose Senior Services Program; home and community-based care waived services; Local Education Authority (LEA) services when provided pursuant to an Individual Education Plan or Individual Family Services Plan; LEA assessment services for eligible students; services rendered in a State or federal hospital; laboratory services provided under the State serum alpha-fetoprotein testing program administered by the Genetic Disease Branch of the Department of Health Services; optical lenses and services provided by the Prison Industries Authority State contract; and Targeted Case Management services.

SCCHO serves all Medi-Cal recipients and Medicare/Medi-Cal eligible recipients who have Medi-Cal Identification numbers with County Code 44 (Santa Cruz County) and eligibility under one of the following aid codes:

<u>Category</u>	<u>Aid Codes</u>
Adult	81, 86, 87
Aged	10, 14, 16, 17, 18
Child	03, 04, 45, 82, 83, 4C, 4K, 5K
Disabled	20, 24, 26, 27, 28, 36, 60, 64, 65, 66, 67, 68, 6A, 6C
Family	01, 02, 08, 30, 32, 33, 34, 35, 37, 38, 39, 40, 42, 54, 59, 3A, 3C, 3P, 3R, 3G, 3H, 0A
Long Term Care	13, 23, 53, 63
Percent of Poverty	7A, 47, 72 (Effective October 1998)

Capitation payments do not include payments made to County Organized Health Systems for excess risk liability claims.

NOTE

The Immigration Reform and Control Act (IRCA) Alien Program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994.

SECTION 6

MEDICARE PAT A AND PART B BUY-IN ACTIVITY

SECTION 6

MEDICARE PART A AND PART B BUY-IN ACTIVITY

Medicare, a medical insurance program, and Medi-Cal, a medical assistance program, together work to pay the medical bills of certain needy and low-income persons. The Medi-Cal program purchases Medicare Part A and Part B Supplementary Medical Insurance (SMI) for program eligibles who are entitled to the coverage.

Table 16 is included to show the number of Medi-Cal eligibles who were also eligible for Medicare Part A and Part B SMI coverage and for whom Medi-Cal paid the enrollment premium (bought in for).

Part A SMI benefits include hospital inpatient services.

Medi-Cal paid the monthly Medicare Part A enrollment premium for an average of 82,184 persons (66,411 aged and 15,774 disabled). The monthly premium averaged \$28.1 million.

Part B SMI benefits include physicians' medical and surgical services, outpatient hospital services, outpatient physical therapy and speech pathology services, durable medical equipment, services from independent laboratories, ambulance services, home health care, and a number of other health services and supplies. In addition to paying the monthly enrollment premium for eligible persons, Medi-Cal can pay the annual deductible and the portion of covered medical costs that Medicare does not pay.

In 1997, Medi-Cal paid the Medicare Part B enrollment premium for an average of 445,264 aged persons each month. The monthly premium averaged \$20.7 million.

Medi-Cal paid the monthly Medicare Part B enrollment premium for 308,189 disabled persons with premiums averaging \$13.8 million per month. The Disabled category includes persons in the Disabled or Blind aid categories.

SECTION 7
COUNTY DATA

SECTION 7

COUNTY DATA

[Table 17](#) shows the number of Medi-Cal eligibles, including Fee-For-Service (FFS), County Organized Health Systems (COHS), and Health Care Plans (HCPs), by age group and sex, in October 1997.

Males comprise 41 percent of the Medi-Cal eligibles. Most males (67 percent) are under age 21, 23 percent are of ages 21 to 64, and 10 percent are 65 and older.

Fifty-nine percent of eligibles are females. Most females are under age 21 (48 percent), 38 percent are of ages 21 to 64, and 14 percent are 65 and older.

[Table 18](#) shows the average monthly number of persons eligible for Medi-Cal in each county by program and aid category, excluding COHS and HCPs.

Los Angeles County accounted for 38 percent of the FFS eligibles.

[Table 19](#) reports average monthly number of users by program and aid category, excluding COHS and HCPs. Division of Table 19 by Table 18 will give proportion of eligibles using Medi-Cal services, or the utilization rate.

Los Angeles County accounted for 38 percent of the users. Its utilization rate of 59.0 percent was 0.8 percentage points lower than the statewide average of 59.8 percent.

[Table 20](#) is a companion to the two preceding tables. Cost per user can be obtained by dividing Table 20 by Table 19, while division by Table 18 gives cost per eligible.

Los Angeles County accounted for 38 percent of the statewide total expenditures. The County's annual cost per user was \$4,889. Los Angeles County's annual cost per eligible was \$2,886.

[Table 21](#) shows average monthly number of users by type of provider. Utilization rates for the various services can be obtained by dividing the number of users by the county total eligibles of Table 18.

For example, the statewide utilization rate for physician services was 27 percent, or 27 out of every 100 eligibles used this service each month. The Los Angeles County utilization rate for physician services was 32 percent.

[Table 22](#) is a companion to Table 21. Cost per user by type of provider can be derived from the two tables.

For example, Los Angeles County's annual cost per user of physician services was \$1,192.81, which was 5.4 percent higher than the statewide average of \$1,128.85.

It can be noted from Table 22 that physician services accounted for 10.5 percent of total expenditures statewide and 13.4 percent of expenditures in Los Angeles County. Such comparisons can be made for each type of provider.

[Table 23](#) shows the number of physicians and hospitals receiving payments from the Medi-Cal program during the April-June 1997 quarter. The hospitals are the general acute care facilities and exclude state hospitals. Primary care physicians are reported separately by type of primary care specialty. Any other specialty (e.g., psychiatry, pathology, etc.) is included in the "All Other" column.

The number of physicians is understated. Due to the billing procedures used in the Medi-Cal program, the number of physicians practicing in groups is not known. Therefore, a group is counted as only one physician throughout this table.

Forty-three percent of the physicians billing the program were primary care physicians. 17.7 percent of the physicians were general practice/family practice physicians, 12.3 percent specialized in internal medicine, 7.3 percent specialized in obstetrics/gynecology, and 5.5 percent were pediatric specialists.

[Table 24](#) shows the county distribution of selected providers receiving Medi-Cal program payments. These are provider types whose total numbers are high enough to provide a functional county distribution for this table.

As would be expected, Los Angeles County, which is the most populous California county, has the largest proportion of providers. Alpine County had only 238 Medi-Cal eligibles and an estimated 1,200 county population in 1997. Other types of services may be obtained through providers in surrounding counties.

The most striking year-to-year change in provider growth was in outpatient clinics which totaled 670 in 1997 up from 404 in 1996.

[Table 25](#) shows the population and Medi-Cal eligibles (including FFS, COHS, and HCPs) for each county.

Los Angeles County (the most populous California county) accounted for 28.9 percent of the population and 34.2 percent of the eligibles; followed by San Diego County accounting for 8.4 percent of the population and 6.4 percent of the eligibles; and Orange County accounting for 8.2 percent of the population and 5.1 percent of the eligibles.

[Table 26](#) shows the number of persons certified eligible for Medi-Cal (including FFS, COHS, and HCPs) by county and race/ethnicity in October 1997.

Of the 5,040,610 persons certified eligible for Medi-Cal in October 1997, 1,884,926 were Hispanic; 1,508,552 were White; 705,919 were Black; and 941,213 were of Other and Not Reported race/ethnicities.

In terms of percentages, 37.4 percent of the Medi-Cal eligibles were Hispanic, 30.0 percent White, 14.0 percent Black, 8.0 percent Asian/Pacific Islander, 0.4 percent American Indian/Alaskan Native, and 10.2 percent Not Reported/race ethnicities.

[Table 27](#) shows the number of providers by provider type and status. As of December 31, 1997, there were 79,546 providers with Active Status, 234,393 providers with Inactive Status, 185 providers with Pending Status, 3,683 providers with Deceased Status, 2 providers with Rejected Status, 1,986 providers with Suspended Status, 54,728 providers with Indirect Status, and 276 providers with Contract Status.

Please Note: The paid claims data on Tables 19-25 (Users and Payments) are understated for Orange, Sacramento, San Mateo, Santa Barbara, Santa Cruz and Solano Counties due to the fact that not all covered services are reimbursed on a per claim basis.

INA Information Not Available.

Note: FFS = Fee-For-Service; IRCA = Immigration Reform and Control Act; OBRA = Omnibus Budget Reconciliation Act.

The IRCA program expired December 31, 1994. IRCA is shown for 1997 because claims continue to be paid due to the lag from time of service to time of payment.

Averages are rounded independently and may not add to totals.

/1/ Availability of data is limited for Orange, Sacramento, San Mateo, Santa Barbara, Santa Cruz, and Solano Counties.

Note: FFS = Fee-For-Service; IRCA = Immigration Reform and Control Act; OBRA = Omnibus Budget Reconciliation Act.

The IRCA program expired December 31, 1994. IRCA is shown for 1996 because claims continue to be paid due to the lag from time of service to time of payment.

Averages are rounded independently and may not add to totals.

Source: State of California, Department of Health Services, Medi-Cal Services and Expenditures Month of Payment Calendar Year Report.

/1/ Availability of data is limited for Orange, Sacramento, San Mateo, Santa Barbara, Santa Cruz, and Solano Counties.

Note: FFS = Fee-For-Service; IRCA = Immigration Reform and Control Act; OBRA = Omnibus Budget Reconciliation Act.

The IRCA program expired December 31, 1994. IRCA is shown for 1996 because claims continue to be paid due to the lag from time of service to time of payment.

Payments are rounded independently and may not add to totals.

Figures in parentheses () indicate negative numbers.

Source: State of California, Department of Health Services, Medi-Cal Services and Expenditures Month of Payment Calendar Year Report.

SECTION 8
HISTORICAL MEDICAL PROGRAM TRENDS

MEDI-CAL PROGRAM OVERVIEW

In July 1965, two major amendments to the Social Security Act greatly expanded the scope of medical coverage available to various segments of the population. Title XVIII established the Medicare program, and Title XIX established the state-option medical assistance program known as Medicaid that provided Federal matching funds to states implementing a single comprehensive medical care program.

State legislation implementing the Title XIX program was signed in November 1965. Medi-Cal, California's medical assistance Medicaid program, became effective in March 1966. Under the provisions of Title 22 of the California Code of Regulations, the State Department of Health Services administers the Medi-Cal program and has statutory responsibility to formulate policy that conforms with Federal and State requirements.

The objective of the Medi-Cal program is to provide essential medical care and services to preserve health, alleviate sickness, and mitigate handicapping conditions for individuals or families on public assistance, or whose income is not sufficient to meet their individual needs. The covered services are generally recognized as standard medical services required in the treatment or prevention of diseases, disability, infirmity or impairment. These services are comprehensive and provide care in the major disciplines of health care.

From the inception of the Medi-Cal Program, the State has contracted with a vendor to receive and process Medi-Cal claims.

In 1992, the State released a Request for Proposal (RFP) to all interested vendors. The RFP was developed to fulfill the State's requirements for fiscal responsibilities and good administrative practices, and to meet the Federal requirements under the Medicaid Management Information System (MMIS).

Electronic Data Systems responded to this RFP and was selected in September 1992 to process Medi-Cal claims for the next 5 years.

MEDI-CAL ELIGIBLES - TABLE 28

Data included in this table are Fee-For-Service (FFS), Redwood Health Foundation (RHF), County Organized Health Systems (COHS), and Health Care Plans (HCPs).

The Medi-Cal eligible population averaged 5.15 million persons per month in 1997. This reflects a decrease of 231,856 or 4.3 percent from 1996 and an increase of 2.0 million or 64.5 percent from 1988.

Public Assistance FFS eligibles averaged 2.33 million persons per month in 1997, a decrease of 22.3 percent from 1996.

Medically Needy eligibles averaged 442,442 persons per month in 1997, a decrease of 11.4 percent from 1996.

Medically Indigent (MI) eligibles averaged 181,671 persons per month in 1997, a 20.3 percent decrease from 1996.

The Immigration Reform and Control Act (IRCA) Alien program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994. IRCA is shown for 1996 and 1997, because claims continue to be paid due to the lag from time of service to time of payment.

The Omnibus Budget Reconciliation Act (OBRA) Alien program averaged 238,591 persons per month in 1997, a decrease of 14.6 percent from the previous year.

The Refugee/Entrant program averaged 1,810 persons per month in 1997, a decrease of 37.9 percent from 1996.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty (renamed Income Disregard), and 200 Percent Poverty programs averaged 210,481 persons per month in 1997, compared to 197,395 in 1996.

The 60-Day Postpartum program averaged 1,730 persons per month in 1997, a difference of 140 eligibles from the previous year.

The Dialysis and Total Parenteral Nutrition programs are small, with an average of 44 eligibles per month in 1997, compared to 35 in 1996.

The Qualified Medicare Beneficiary program averaged 3,838 eligibles per month in 1997, an increase of 38.6 percent from 1996.

Data for the Presumptive Eligibility for Pregnant Women program are not available.

The Medi-Cal Tuberculosis program averaged 550 eligibles per month in 1997, a decrease of 8.6 percent from 1996.

The Minor Consent program averaged 4,774 eligibles in 1997.

MEDI-CAL PAYMENTS - TABLE 29

Data included in this table are Fee-For-Service (FFS), Redwood Health Foundation (RHF), County Organized Health Systems (COHS), and Health Care Plans (HCPs).

During 1997, Medi-Cal program payments ran \$12.04 billion. This reflects an increase of \$145.2 million or 1.2 percent from 1996 and an increase of \$12.0 million or 218.9 percent from 1988.

Public Assistance, the largest group in terms of total FFS expenditures, received \$5.6 billion in services during 1997, a 3.9 percent decrease from 1996.

The Medically Needy group received \$3.1 billion in services during 1997, a decrease of 1.1 percent from 1996.

Medically Indigents received a total of \$324.0 million in services during 1997, compared to \$362.8 million or a 10.7 percent increase in 1996.

The Aliens and Refugee/Entrants received a total of \$557.6 million in services during 1997, a decrease of 13.3 percent from 1996. The Immigration Reform and Control Act (IRCA) Alien program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994. IRCA is shown for 1996 and 1997, because claims continue to be paid due to the lag from time of service to time of payment.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty (renamed Income Disregard), and 200 Percent Poverty programs ran \$319.1 billion during 1997, a 1.8 percent decrease from the previous year.

The 60-Day Postpartum program ran \$1.8 billion during 1997, a 15.8 percent increase from 1996.

The Dialysis and Total Parenteral Nutrition programs ran \$424 thousand during 1997, a 33.4 percent increase from 1996.

The Qualified Medicare Beneficiary program ran \$3.1 million in 1997, compared to \$1.6 million in 1996, or a 87.5 percent increase.

The Presumptive Eligibility for Pregnant Women program ran \$59.2 million during 1997 and \$45.8 million in 1996, or a 29.2 percent increase.

The Medi-Cal Tuberculosis program ran \$243 thousand during 1997, compared to \$179 thousand in 1996, or a 35.8 percent increase.

The increase in expenditures in 1997 from previous years is attributable to a higher rate of use by beneficiaries, reimbursement rate increases to providers, inflation, and changes in services.

APPENDIX A
DEFINITIONS OF TERMS

DEFINITIONS OF TERMS

The following defines commonly used terms used in discussions of Medi-Cal. The definitions are essentially correct, but some are much more complex than indicated below.

Beneficiary:	Inconsistently used to indicate a person who receives service (user or recipient) or a person eligible for service.
Capitate:	Refers to the payment of a set amount of money per month per person Capitation to an agency. The agency then provides medical care for all persons paid for. Essentially an insurance premium arrangement.
Categorical:	Designates persons eligible for assistance because they fall into certain welfare groups or categories (Aged, Blind, Disabled or AFDC).
CID:	The Centralized Identification system was a computer system which mailed out Medi-Cal ID cards each month to eligibles. Some reports on eligibility still use this term.
COHS:	County Organized Health Systems. Under this approach, the county acts as the primary contractor serving most Medi-Cal beneficiaries in the county. The COHS receive a capitated rate for each beneficiary in the county, and assume full financial risk.
Costs:	Medi-Cal Program payments or expenditures, usually to providers for services rendered. But may include all program expenditures.
Crossover: (X-over)	Refers to a claim that has been processed and paid in part by Medi-care and then processed by Medi-Cal for those with dual eligibility. Also referred to as Medi-Medi Claim.
Encounter:	Service/Supply rendered to a Medi-Cal beneficiary. Also referred to as a Shadow Claim if the Service/Supply is rendered under Managed Care.
Eligibles:	Persons who have been processed through the system and determined to meet the criteria for receiving medical assistance under the Medi-Cal Program.
Enrollees:	Eligibles who have joined Managed Care Plans.
Expenditures:	See Costs.

DEFINITIONS OF TERMS, Continued

Family P.A.C.T.	Family P.A.C.T. (Also known as SOFP - State Only Family Planning). Comprehensive family planning services for low income residents of California with no other source of health care coverage.
Federal Financial Participation: (FFP)	The amount of money the Federal Government pays in the operation of the Medicaid Program. FFP varies from 50 percent to 90 percent depending on type of service and meeting of stipulated criteria.
Fee-For-Service: (FFS)	Used to distinguish regular Medi-Cal Program from the Managed Care Program: "Fee-For-Service eligibles" are persons not enrolled in Managed Care Plans.
GMC:	Geographic Managed Care. Under this approach, the Medi-Cal Program negotiates contracts directly with providers to accept beneficiaries within a specified area, again paying a monthly rate based on the estimated cost of providing services to similar beneficiaries under the fee-for-service system. The Department implemented this approach in Sacramento County in April 1994.
HCPs:	Health Care Plans. Medi-Cal contracts with private entities to provide care to specific beneficiary categories that include the managed care models COHS, GMC, PHP, PCCM, and Two-Plan Model.
HMO:	Health Maintenance Organization. (See HCPs.)
Medi-Cal:	California's name for Medicaid, includes the federal and state program of medical assistance for needy and low-income persons. (Federal designation of the Medical Assistance Program authorized under Title XIX of the Social Security Act.)
Medi-Cal Card:	An identification card given to Medi-Cal eligibles.
Medically Indigent:	A group of persons eligible for Medi-Cal Program benefits who are not categorically linked. Distinguished from Public Assistance and Medically Needy eligibles.
Medically Needy:	Categorically linked individuals eligible for medical assistance who meet the same eligibility criteria as Public Assistance persons. However, the MNs do not receive cash assistance because they have excess property or income according to welfare standards.
Medicare:	The Federal Social Security Program (Title XVIII of the Social Security Act) provides medical care to aged and certain disabled persons. This is essentially a medical insurance program, as opposed to Medicaid which is a public assistance program for the needy.

DEFINITIONS OF TERMS, Continued

MEDS:	Medi-Cal Eligibility Data System. A major Electronic Data Processing (EDP) system providing online access to over 17 million records of current or former Welfare, Medi-Cal, or County Medical Services Program (CMSP) clients to support administration of those programs and delivery of benefits.
MEDSSUM File:	An eligibility summary file that summarizes the number of eligibles by aid code and county on a monthly basis for each month of eligibility.
Minor Consent:	Covers minors under 21. Limited to services related to sexually transmitted diseases, sexual assault, drug and alcohol abuse, pregnancy, family planning and outpatient mental health treatment.
Paid Claims:	A claim for medical services paid in behalf of a Medi-Cal eligible. Claims data are captured on computer tape and comprise the major data base of the Program. Usually "paid claims" refers to this data base rather than the actual document.
PCCM:	Primary Care Case Management. PCCM plans are paid a monthly capitation rate to manage selected outpatient services to Medi-Cal beneficiaries enrolled in the plan.
PHPs:	Prepaid Health Plans. Now referred to as (HCPs) Health Care Plans.
Provider:	Any individual, group, business, or facility authorized to bill the Medi-Cal Program for services rendered to Medi-Cal eligibles. Includes the full scope of practitioners and facilities, such as physicians, hospitals, chiropractors, pharmacies, nursing facilities, intermediate care facilities, home health agencies, etc.
Public Assistance:	Refers to persons eligible for both cash assistance and medical assistance. These persons are aged, blind, disabled or members of families with dependent children; the assistance categories.
Recipient:	A user of a specified type of service.
SDX:	State Data eXchange: The computer tapes received from Social Security Administration which contain names and addresses of persons eligible for Medicare and Medi-Cal concurrently.
Services:	What providers provide Medi-Cal patients and are paid for by the Medi-Cal Program. Services have to be defined within the context in which they're reported. For example, the units of service for inpatient hospital services are patient days, the unit in prescription drugs is prescriptions, the unit in outpatient visits is visits, etc.

DEFINITIONS OF TERMS, Continued

- SSI/SSP: Supplemental Security Income/State Supplementary Payment. If you get a SSI/SSP grant, Medi-Cal eligibility is automatically set up by your Social Security district office.
- Two-Plan Model: Two-Plan Contractors now provide or are preparing to provide medical services to nearly all Medi-Cal recipients in 12 counties (Alameda, Contra Costa, Fresno, Kern, Los Angeles, Riverside, San Bernardino, San Francisco, San Joaquin, Santa Clara, Stanislaus and Tulare).
- The Department will contract with only two managed care plans. One plan will be a locally developed, comprehensive managed care system referred to as the Local Initiative. The other plan will be a non-governmentally operated Health Management Organization referred to as the Commercial Plan.
- Vendor: See Provider.

APPENDIX B

AID CODES MASTER CHART

The AID Codes Master Chart is currently being revised and will not be included in this calendar year report. We will continue with it next year.
