# **APPENDIX D**

**Telephonic Stratified Random Sample Public Awareness Survey:  
Carlsbad and San Luis Rey Watersheds**

**INTRO:** Hello, my name is \_\_\_\_\_. I'm calling from the Social Science Research Lab at San Diego State University. We're conducting a study about some issues in northern San Diego County and we're interested in your opinions. County and City officials are looking for input to help guide them in getting information out to the public.

**[IF ASKED TOPIC:]** The questions ask about care of vehicles, homes, and some environmental health issues.

**[IF ASKED SPONSOR:]** This survey is being conducted on behalf of the county of San Diego and the North County cities of Carlsbad, Encinitas, Escondido, Oceanside, San Marcos, Solana Beach, and Vista.

**BDY:** First, in order to get a random sample, we are asking to speak to the person 18 or older in the household who last had their birthday. Is that you? **[SCHEDULE CB IF NEEDED OR CONTINUE]**

**SEX:** 1-MALE 2-FEMALE

**ZIP:** We're interested in speaking with people from different areas. Could you please tell me your zip code? **[IF NOT ELIGIBLE ZIP, THANK AND CODE "NQR-ZIP"]**

To ensure that my work is done honestly and correctly, this call may be monitored.

**[IF ASKED ABOUT MONITORING:]** My supervisor randomly listens to interviews to make sure we're reading the questions exactly as written and not influencing answers in any way.

(Is this a good time to answer some questions?)

**Q1.** We're trying to get an accurate measurement of certain types of household activities among residents in this area. Please

keep in mind that there are no right or wrong answers, and we really appreciate your honest responses. (Again, this is completely anonymous.)
